Safety Information

There is no gun handling when in the classroom or the range without the instructor's authority. Upon arrival, all firearms shall be unloaded and cased. All guns must be unloaded with ammunition separate and boxed until instructions are received from the chief instructor. Absolutely no ammunition is allowed in the classroom.

All participants should remember the primary rule in using a tool or firearm; "If you do not know how to handle it, don't touch it". When handling a firearm follow the three NRA safety rules. 1. Always point your firearm in a safe direction. 2. Keep your finger off the trigger until you are ready to shoot. 3. Always treat all firearms as if they are loaded. A good cleaning is highly recommended for your firearms before attending the class. If you are new to firearms, limit handling prior to the class to avoid accidents. Negligent discharge of a firearm, menacing conduct (like horse play or threatening behavior), being under the influence of any drugs (prescription drugs also) are not tolerated.
